

TEST RESULTS:

Independent testing has proven Algarid's effectiveness. Tests conducted by the Public Health Laboratories for example, produced the following results, in an independent field test.

| Standard Plate Count (Cal/ml) | Untreated Water | ALGARID Treated Water |
|--------------------------------------|------------------------|------------------------------|
| Total Count 25° C | 3000 | 300 |
| Total Count 37° C | 4000 | 240 |

For further information contact Algarid.
